

CABF Program Committee 2020-2021

The Program Committee takes the lead in the convening of the CABF. Since October of 2020, we have met in conjunction with the CABF 50th Anniversary Committee, in preparation for this year. Our ten joint meetings have been chaired by David Allen, and we thank him and others from that committee for their faithful teamwork. Planning events that were online only has been the challenge of this era, and has disappointed some of our hopes for our jubilee year. We are so grateful for the efforts and expertise of a number of people who made possible our 'virtual' events of the past fall and spring. It shall be worth it to gather in person to celebrate, in the spring of 2022. So it seems likely that we will have our big assembly in the Spring, our Rushton Lecture in the fall of 2022, and the next Rushton Lecture in the spring of 2023.

Respectfully submitted,
Jeff White, Chairperson
